Weekly food support for residents of the Centreville Chicopee neighbourhood.

The mission of the Centreville Chicopee Community Association (CCCA) is to promote recreation, education, and social activities, within the association's defined boundaries, and to encourage participation from people of all ages to foster community spirit. I want to thank your community association board for their efforts to make this mission come to life.

It's good to see this community centre busy with activities and programs again. The disruptions caused by the pandemic made it difficult to stay connected in person. Those connections are being restored, expanded, and strengthened through the caring volunteers on your CCCA Board. This community centre is where you can learn, grow, have fun, support one another, and connect to build a sense of belonging in your community.

I attend the CCCA's board meetings and it's clear they sincerely want this community centre to be YOUR community centre. They want to provide programs, services, supports, and events that you want and need. If you have thoughts or ideas on what you'd like to see offered, please let them know. Maybe you'd like to volunteer and be part of the board or volunteer team that helps at events. You can speak to someone at the front desk, and they can put you in touch. You can also contact them through email at contactus@cccakitchener.ca.

If I can assist you, please contact me at dave.schnider@kitchener.ca or call or text me at 226.751.2470. Visit my website daveschnider.com for Ward 2 and city information. I'm happy to help.

Sincerely,

Councillor Dave Schneider—Ward 2

ARCADE GAME BUILDING, 8-12 years (Centreville Chicopee Community Association)					
Winter MakeCode brings computer science to life for all with fun projects, immediate results, and both block and text editors for learners at different levels. Develop your programming skills by quickly creating and modding retro arcade games with Blocks and JavaScript in the MakeCode editor. Microsoft MakeCode Arcade is a web-based beginner-friendly code editor to create retro arcade games for the web and for dedicated hardware. As usual with MakeCode, you can either use blocks or JavaScript to build your program in your browser. There's nothing to install – the games will just work in the browser! For even more fun, you'll be able to build your own Arcade-compatible game systems or buy them from our hardware partners. But just to make it clear: hardware is optional – you can get started playing using only a computer with a web-browser.

LEGO WeDo 2.0 ROBOTICS – FIX & CODE, 4-6 years (Centreville Chicopee Community Association)					
This WeDo 2.0 curriculum involves students in the exciting story about the future life. In legend, soon, we will be surrounded by smart robots that will actively help people in a variety of industries. However, even such smart robots cannot do without human help. The course of 12 lessons, tells on how children (as part of a team of specialists) can create robots themselves and help them by learning to interact. In each lesson, a unique robot character reports it's					

breakdown (this is a real problem in our life) and asks them to fix it. Children not only repair but also improve their new friends.					
Tuesday	May 9 – May 30	4:30-5:25pm	CCCC – Room 2	\$55/4 weeks	110391
LEGO WeDo 2.0 ROBOTICS – SPACE JOURNEY, 6-8 years (Centreville Chicopee Community Association)					
This extraordinary WeDo 2.0 curriculum involves students in the exciting story about creating the colony on the far planet. We combine robotics, Scratch programming and game design to achieve the maximum students' involvement in the learning process. Students will become a member of the expedition to the planet suitable for life. An experienced team of engineer, programmer, planetologist, will help to solve the tasks and problems that appear on the way, but the creation of the base on the planet's surface is only the beginning of the adventure! This planet has a lot of secrets and a long history. Only teamwork and collaboration with the new friends will help to survive and resolve the mistakes done by previous inhabitants of the planet!
